---

SHIPPING SEASON opens about March 20 to April 1 in the Spring, and continues until May 20 to June 1, and opens about October 1 in the Fall, and continues until the ground freezes. Shipping for **summer planting of Evergreens** opens about August 15th, Pot-grown plants can be shipped and planted at all times.

ORDERS.—Write plainly and give **explicit directions** as to address and mode of shipment; otherwise we will forward **according to our best judgment**. All goods travel at purchaser's risk. We assume no responsibility for the goods after delivery to the forwarding companies.

When losses occur by delays in delivery, claims should be made **at once** on the forwarding companies.

CLAIMS, to receive consideration, must be made **within ten (10) days of receipt of goods**.

While we exercise the greatest care to have all Trees, Shrubs and Plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that prove untrue, **we do not give any warranty, expressed or implied**; and in case of an error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

PACKING.—We take great care in packing, using damp moss to protect roots. Boxes and bales are **charged for at cost**.

RATES.—The prices in this list supersede all previous rates, and apply to quantities specified, but two hundred and fifty (250) will be furnished at the thousand rate, twenty-five (25) at the one hundred rate, and five (5) at the ten rate.

**This Price List cancels all previous lists and prices are subject to change without notice.**

TERMS. CASH WITH ORDERS, except to such persons as satisfy us as to their responsibility. Bills are due when **presented** and interest will be charged at the rate of six per cent. on bills remaining unpaid December 1 in Fall and June 1 in Spring.

A Certificate of Inspection will accompany each shipment.

Address all communications to office.

## SPRING, 1924

---

Our Evergreens are in especially fine condition this year. Most of them have been transplanted recently and all of them are in excellent condition for Spring planting. We wish to call special attention to our small Evergreens suitable for hedges, group planting and window-boxes, and to our large specimens for immediate effects. Many of these specimens are of unusual beauty and can be moved on platforms, at special prices, which we will gladly quote upon request.

Look on pages 12 to 19 at our list of Pot-grown Scotch Heather and other ground covers.

A cordial invitation is hereby extended to visit our nursery at any time for the purpose of plant study, or for inspection of saleable stock.

EASTERN NURSERIES, INC.

This Catalogue has been corrected in accordance with the new Book of Standardized Plant Names by the American Joint Committee on Horticultural Nomenclature

<b>Calluna vulgaris</b> SCOTCH HEATHER, and named varieties			
<p>Scotch Heather, the "Bonnie Purple Heather" of song and verse, is a lovely, low-growing evergreen shrub, 6 in. to 3 ft. in height, of the Heath Family, covered in midsummer with small, bell-shaped purple flowers, borne on slender spikes. These flowers stay in good condition for some weeks, and if cut while fresh will hold their color and charm all winter. Honey bees, too, are attracted to Scotch Heather and make from it a honey that is considered very choice. This plant is widely known as invaluable for planting in full sun in sandy soil; it is also most attractive as an edging to beds of Rhododendrons, Laurel, etc., and in Rock Gardens. This little plant gives most satisfaction when planted from pots. Besides the common purple Heather there are many varieties which give variation in the height of plant, color of flowers, and season of bloom. Below we offer a list of varieties, all of which are pot grown, sturdy plants. 2½ and 3 in. pots</p>			
<p>var. <b>alba</b> WHITE SCOTCH HEATHER, early blooming, with light green foliage, white flowers, grows 12 to 15 inches. 2½ and 3 in. pots</p>			
<p>var. <b>alba elata</b> TALL WHITE HEATHER. Late blooming; very tall, straight growth. Foliage soft dark green, flowers white, grows 18 to 24 in. 2½ and 3 in. pots</p>			
<p>var. <b>alba hammondi</b> HAMMOND WHITE HEATHER. Mid-season, tall upright growth, foliage rich deep green, flowers white, grows 18 to 24 in. high. 2½ and 3 in. pots</p>			
<p>var. <b>alba minor</b> DWARF WHITE HEATHER. Mid-season tall bushy growth, 15–20 in. high, foliage very fine light green; flowers white. 3 in. pots</p>			

For prices see pages 13 - 14

- var. **alba pilosa** Late blooming, tall growth 18-20 in. high, foliage of soft grayish green, flowers white. 2½ and 3 in. pots
- var. **alba rigida** BRUSH HEATHER. Late, low rigid growth, foliage rich deep green, flowers white. 2½ and 3 in. pots
- var. **alporti** ALPORT HEATHER. Late blooming, tall straight growth to 24 in. foliage deep rich green, turning purple in autumn. Flowers rosy carmine. 2½ and 3 in. pots
- var. **aurea** Golden foliage and pink flowers, one of the best of those with colored foliage. 2½ and 3 in. pots
- var. **compacta** Late blooming. Low compact, moss-like growth, 4 to 6 in. high, of bright, rich green. Flowers pale lavender. 2½ and 3 in. pots
- var. **cuprea** Mid-season. Straight medium growth 12 to 15 in. high, foliage bright, almost yellowish green, turning to rich glowing red in autumn. Flowers purple. 2½ and 3 in. pots
- var. **hirsuta (tomentosa)**. WOOLLY HEATHER. Midseason. Low compact growth. 4 to 7 in. high, foliage soft gray, flowers purple. 3 in. pots
- var. **humilis** Low growing, with rich green foliage. Flowers, midseason, white. 3 in. pots
- var. **hypnoides** Late blooming. Low-spreading growth, 6 to 12 in. high. Foliage soft deep green, flowers deep pink. 2½ and 3 in. pots
- var. **monstrosa** Loose growth. Flowers pink. 3 in. pots
- var. **rosea** Mid-season. Tall, straight-growing, with delicate pink flowers. 3 in. pots.
- var. **rubra** RED HEATHER. Early blooming, with low spreading growth, 6 to 12 in. high. Foliage soft green turning purple in autumn. Flowers rosy carmine. 3 in. pots
- var. **tenella** SLENDER HEATHER. Early blooming. Low growth with slender spikes of dainty lavender flowers. 3 in. pots.

NOTE: The **Cotoneasters** are among the most important groups of hardy plants which have recently been brought before the public. All of them have attractive foliage and conspicuous berries. Of those listed below *C. adpressa*, *horizontalis* and its variety *perpusilla*, and *C. microphylla* are of low-spreading growth, have small glossy, evergreen-like foliage and bright red berries

**Plant Bearberry and Scotch Heather near the sea**

which stay on the shrubs well into the winter. The plants of this group of *Cotoneaster* are particularly adaptable for use in rockery, on the edge of low shrubberies or on slopes. *C. Dielsiana*, *divaricata* and *salicifolia floccosa* are of more shrub-like growth, with long graceful branches, glossy leaves and bright red berries. All of these plants are hardy and do well in any good well-drained garden soil, but require plenty of water during the first year after transplanting, and take hold much more satisfactorily when transplanted from pots than from the field.

<b>nitida</b> EVERGREEN HONEYSUCKLE			

A tall-growing, graceful shrub, with long slender branches thickly clothed with small shining evergreen leaves which turn rich purple in the autumn. This beautiful shrub is not quite hardy in the vicinity of Boston; but for southern New England, Long Island, New York and south and west it should prove a valuable garden hedge plant.

4 in. pots . . . . .	.75
6 in. pots XX specimens . .	1.00

**pileata** PRIVET HONEYSUCKLE

This Honeysuckle, also, is evergreen. The growth of this shrub is somewhat stiff, and spreading, the foliage ½ to 1 inch long, rather box-like, and bright shining green. While still a small plant *L. pileata* is covered with small yellow flowers which produce in early autumn beautiful transparent berries of clear light purple. Like *L. nitida* this shrub does not always survive the severe winters of this climate; but in southern New England and south and west it is one of the most useful and beautiful of the new shrubs. It will serve as a specimen shrub in the garden, a shrub for rock-gardens, or as a low, wide-spreading hedge.

<b>stellata</b> (Desert Rose). NEW MEXICAN ROSE. 2 to 4 ft., distinct from all other roses, known only from a single mountain range in New Mexico. Branching freely, the slender spiny twigs are coated with a thick felt of stellate hairs, whence the name, stellata. The leaves are very small, dark green above, with three to five leaflets. Almost everblooming, the flowers are large, the size and nearly the color of Rosa rugosa, and are followed by rough, spiny burrs, red in color and quite attractive. It is a plant of the desert and the only precaution to observe is good drainage

2½ to 3 ft. . . . .	4.00		
<b>obtusa kiusiana</b> Kurume Azalea			
This beautiful Azalea, recently brought to the notice of the public by Mr. E. H. Wilson, of the Arnold Arboretum, has proved to be a wonderful forcing Azalea for early Spring bloom in conservatory or greenhouse. From a collection of over 200 sorts Japanese experts selected what they considered the best six varieties. We are now offering for sale plants of these six varieties, raised from cuttings. The six varieties referred to are:			
TAKASAGO, pure pink, hose-in-hose			
AZUMA-KAGAMI, deep pink, hose-in-hose			

---

For prices see pages 13 - 14

KIRIN, deep rose, shading to silvery rose, hose-in-hose

KUMO-NO-NYE, pure salmon, single

KURAI-NO-HIMO, pure white, hose-in-hose

KURENO-YUKI, pure white, hose-in-hose

\$30.00 per set of one each of the above

Plants 3 years old, in 5-inch pots, packed for shipment in original pots. Ready for immediate delivery. Cash with all orders.

NOTE—We cannot break these sets, nor sell more than two sets to any one customer, but we have a limited number of slightly smaller plants of the following varieties:

KIRIN, deep rose, fading to silvery rose

KUMO-NO-UYE, pure salmon

KURENO-YUKI, pure white

\$3.50 each. \$10 per set of one each of these three

	Each	10	100

<b>Cotoneaster racemiflora</b> var. <b>soongarica</b>			
3 to 4 ft. bushy, tr. 1922 . . . . .	2.50		

By many people this is considered the most beautiful of all shrubby Cotoneasters. It is of tall growth, has silvery leaves, flowers in clusters and numerous large brilliant red fruits.

For *Cotoneaster divaricata*, *horizontalis* and var. *perpusilla* see Pot-grown Plants, page 15.

		Each	10	100
<b>Crataegus arnoldiana</b>	Arnold's Hawthorn			
5 to 6 ft.		\$3.00	\$25.00	\$
6 to 7 ft.	cut back	3.50	32.00	
7 to 8 ft.	"	4.50	40.00	
8 to 9 ft.	"	5.50		
This is one of the rarest and most beautiful of all Hawthorns. It has large white flowers in early spring. Even the young trees offered by us bear quantities of large round edible scarlet fruits in August and September, and, later, the substantial leaves turn a beautiful scarlet. A beautiful small flowering tree, suitable as a specimen, for planting in groups on the edges of woods, or near the sea.

2 to 3 ft. . . . .	1.25	10.00	
The white and deep yellow Potentillas are charming shrubs of low habit. Their arching branches are covered with delicate divided leaves, and small single flowers, like tiny roses, continuing to bloom from early spring until frost. As a low shrub in the foreground of shrubbery or for the rockery these shrubs are invaluable.

<b>lucida</b> Virginia Rose A wild rose bush, with single, pink flowers			
2 to 2½ ft. . . . .	.55	4.50	
<b>alba</b> A white bush rose			
15 to 18 in. . . . .	.50	4.50	
<b>Mme. Plantier</b> Old-fashioned, double-flowered white rose			
2 to 3 ft. . . . .	1.00	8.50	
<b>Minnie Dawson</b> Dawson hybrid. Rambler of the Dawson habit, the flowers small double white borne in large clusters, early in the season. The Dawson and Minnie Dawson are the earliest to bloom of all climbers, flowering in our vicinity sometimes in late May, always in early June			
2 yr. . . . .	1.00	9.00	
2 to 3 ft. XX strong . . .	1.50	12.50	
<b>multiflora</b> Japanese white climbing rose			
2 to 3 ft. . . . .	.40	3.50	
3 to 4 ft. . . . .	.50	4.00	
var. <b>catheyensis</b> Cathay rose, a climbing rose with single pink flowers			
15 to 18 in. bushy . . . . .	1.00	9.00	
<b>omlensis</b> Mount Omei Rose A bush rose			
15 to 18 in. bushy . . . . .	1.00	9.00	

	Each	10	100
<b>Rosa Paradise</b> A climbing rose with single pink flowers 18 in. . . . .	\$1.25	\$10.00	\$
<b>Paul's Scarlet Climber</b> New climbing rose with large double clear scarlet flowers 2 yr. . . . .	1.25		
<b>Pauline Dawson</b> A Dawson hybrid climber or pillar rose of good foliage and large single deep pink flowers 2 to 3 ft. XX strong . . . .	1.50		
<b>penzance hybrids</b> Bush roses, hybrids of the popular Sweet Briar, having fragrant pink flowers 2 to 3 ft. . . . .	1.25	10.00	
<b>Persian yellow</b> Double deep yellow flowers 1 to 1½ ft. strong . . . . .	1.25	10.00	
<b>Purity</b> A large-flowered white climber, similar to Silver Moon, but hardier and flowers more freely 2 yr. . . . .	1.50		
<b>rugosa</b> Ramanas rose 1 to 1½ ft. . . . .	.75	6.00	
<b>alba</b> White Rugosa rose 1 to 1½ ft. . . . .	.75	6.00	
<b>var. Conrad F. Meyer</b> A bush rose with double flowers 12 in. . . . .	1.00		
<b>rugosa repens alba</b> Climbing or creeping white-flowered rugosa hybrid, with glossy foliage and large star-shaped white flowers 2 ft. spread . . . . .	1.50		
<b>Seashell</b> Dawson hybrid Climber which has glossy foli- age and large clusters of large, semi-double pink flowers, blooming in July 1½ to 2 ft. spread . . . . .	1.25	11.50	
<b>Silver Moon</b> A cilmbcr, which has single, cream white flowers 18 in. . . . .	1.00	8.50	
<b>Trier</b> A climber with single, creamy white flowers 15 to 18 in. . . . .	1.00		
<b>William C. Egan</b> A Dawson hybrid, climber, with good foliage and large very double pink flowers. Late June. The Egan Rose is one of the very satisfactory climbing Roses. Its foliage is pleasing, and is never attacked by insects, it does not die back in hard winters, and even when very small it is covered with the large, very double fragrant roses 2 to 3 ft. . . . .	1.50	12.50	

All the Roses listed above are thrifty two to three-year old plants which were planted from pots last spring, and will lift with good roots

**Hybrid Perpetual and Hybrid Tea Roses** We have a limited supply of Hybrid Roses including Caroline Testout, Paul Neyron, Frau Karl Druski, and Mme. Edward Herriott

**Spiraea arguta** Hybrid Snow Garland

3½ to 4 ft. . . . . .60 5.00
